

John Albert BURNHAM

Jabmediaservices.com
Novi, Michigan
313.296.2823

OBJECTIVE

As a seasoned developer of multimedia assets, I excel at the creation of 2D/3D animation and static imagery. In addition to an existing, comprehensive software skill set, I have recently acquired newer application capabilities including many 3D rendering engines and rotoscope plugins during "quarantine induced" self-training sessions. I am a hardworking self-starter and enjoy working with people in team environments. I look forward to being a valuable addition to your team.

EXPERIENCE

JAB Media Services - Novi, MI - 6/2000 - Present **Freelance Multimedia Artist**

- Rigged/animated popular Pokemon characters for a Youtube production
- Authored multiple Flash elements for Chevy Zmags for Campbell Ewald Advertising
- Shot and edited two green screen music videos for local rock bands
- Edited several vignette style marketing videos for a local business
- Created illustration content for various client websites

XMCO / DSS (contract) - Sterling Heights, MI - 2016 **Graphic Support Artist**

- Created military specific vector line art over supplied photographs and storyboards
- Utilized my electronic schematic layout knowledge per requirement
- Programmed a variety of CorelDraw macro scripts to expedite time consuming processes

Nissan Automotive Virtual Garage (contract) - Farmington, MI - 2012 - 2016 **Digital Designer**

- Harvested Nissan/Infinity math-data for eventual commercial/promotional use
- Wrote object specific formula expressions in Excel for explicit "Bill of Material" filtering
- Viewed and corrected NURBS CAD data accordingly in RTT Deltagen software

Cont...

Team Detroit (The Park) - Dearborn, MI - 2011 - 2012

CGI Artist

- Rendered photo-realistic 3D images for the Ford “Build and Price” website
- Interacted with multiple art directors
- Utilized Deadline render farm software for project multitasking

Raytheon Professional Services - Troy, MI - 2005 - 2010

2D/3D Animation / Compositing / Rendering

- Modeled, animated and rendered 3D support graphics for tech training purposes
- Utilized TeamCenter software for all CAD acquisition

Word Pictures, Inc. - Warren, MI - 4/1995 - 2/2005

Multimedia Developer

- Authored dozens of CD-ROM/DVD based training programs in Flash / Authorware
- Created technical illustrations for General Motors Corvette collision repair manuals
- Animated / composited all 2D and 3D motion elements
- Avid MC1000 video editor for all technical training videos for General Motors
